CONTENTS OF VOLUME 123

No. 1, March, 1938

PAGE

Morgulis, Sergius. Glycolysis and glutathione 1
Bull, Henry B. Studies on surface denaturation of egg albumin ... 17
Yeakel, Eleanor H., and Blanchard, Ernest W. The effect of adrenalectomy upon blood phospholipids and total fatty acids in the cat 31
Gunther, J. Kenneth, and Rose, William C. The relation of alanine to growth 39
du Vigneaud, Vincent, Irving, George W., Jr., Dyer, Helen M., and Sealock, Robert Ridgely. Electrophoresis of posterior pituitary gland preparations 45
Goerner, Alfred, and Goerner, M. Margaret. Vitamin A and tumor mitochondria 57
Pucher, George W., Curtis, Lawrence C., and Vickery, Hubert Bradford. The red pigment of the root of the beet (*Beta vulgaris*). I. The preparation of betanin 61
Pucher, George W., Curtis, Lawrence C., and Vickery, Hubert Bradford. The red pigment of the root of the beet (*Beta vulgaris*). II. A method to determine betanin 71
Levene, P. A., and Christman, Clarence C. The reduction of aminosorbitol hydrochloride with hydriodic acid 77
Levene, P. A., and Christman, Clarence C. The reduction of glucosaminic acid with hydrogen iodide in glacial acetic acid 83
Daft, Floyd Shelton, Robscheit-Robbins, Frieda S., and Whipple, G. H. Plasma protein given by vein and its influence upon body metabolism 87
Howland, J. W., and Hawkins, W. B. Protein metabolism, protein interchange, and utilization in phlorhizinized dogs 99
Williams, Harold H., Erickson, Betty Nims, Avrin, Ira, Bernstein, Samuel S., and Macy, Icie G. Determination of cephalin in phospholipids by the estimation of choline 111
Gaebler, Oliver Henry, and Abbott, Lynn DeForrest, Jr. Isolation of creatinine from serum ultrafiltrates 119
Christensen, Halvor N., and Corley, Ralph C. Observations on the alleged presence of lipid chlorine in the blood and tissues 129
Elvehjem, C. A., Madden, Robert J., Strong, F. M., and Woolley, D. W. The isolation and identification of the anti-black tongue factor 137

CORRELL, JOHN T., BERG, CLARENCE P., and COWAN, DONALD W. Tryptophane metabolism. IX. The excretion of kynurenic acid in the bile and urine of the dog after the administration of kynurenic acid and *l*- and *dl*-tryptophane 151
FRIEDEMANN, THEODORE E. The identification and quantitative determination of volatile alcohols and acids 161
COHN, WALDO E., and GREENBERG, DAVID M. Studies in mineral metabolism with the aid of artificial radioactive isotopes. I. Absorption, distribution, and excretion of phosphorus 185
LARSON, CLARENCE E., and GREENBERG, DAVID M. The analysis of calcium in blood and other biological material by titration with ceric sulfate 199
HEARD, E. VIRGINIA, and LEWIS, HOWARD B. The metabolism of sulfur. XXV. Dietary methionine as a factor related to the growth and composition of the hair of the young white rat 203
PAPAGEORGE, EVANGELINE, and LEWIS, HOWARD B. Comparative studies of the metabolism of the amino acids. VII. Experimental alcaptonuria in the white rat 211
KAO, HSUEH-CHUNG, CONNER, R. T., and SHERMAN, H. C. The availability of calcium from Chinese cabbage (*Brassica pekinensis*, Rupr.) 221
BARRON, E. S. GUZMAN, and LYMAN, CARL M. Studies on biological oxidations. X. The oxidation of unsaturated fatty acids with blood hemin and hemochromogens as catalysts 229
FREEMAN, SMITH, and CHEN, YEN PING. The effect of jaundiced blood upon normal dogs, with special reference to the serum phosphatase 239
CHANUTIN, ALFRED, HORTENSTINE, J. C., COLE, W. S., and LUDEWIG, STEPHAN. Blood plasma proteins in rats following partial hepatectomy and laparotomy 247
DEUEL, HARRY J., JR., BUTTS, JOSEPH S., HALLMAN, LOIS F., MURRAY, SHEILA, and BLUNDEN, HARRY. Studies on ketosis. XIII. Diurnal changes in liver glycogen 257
LIPSCHITZ, M. A., POTTER, V. R., and ELVEHJEM, C. A. The metabolism of pyruvic acid in vitamin B_1 deficiency and in inanition 267
WHITTIER, E. O. Buffer intensities of milk and milk constituents. III. Buffer action of calcium citrate 283
YANNET, HERMAN, and DARROW, DANIEL C. The effect of growth on the distribution of water and electrolytes in brain, liver, and muscle 295
BERNHEIM, FREDERICK, and BERNHEIM, MARY L. C. The action of *p*-aminophenol on the xanthine oxidase of liver 307
BERNHEIM, FREDERICK, and BERNHEIM, MARY L. C. The oxidation of mescaline and certain other amines 317
PATTERSON, WILBUR I., and DU VIGNEAUD, VINCENT. The synthesis of tetradeuterohomocystine and dideuteromethionine 327

Sidwell, A. E., Jr., Munch, R. H., Barron, E. S. Guzman, and Hogness, T. R. The salt effect on the hemoglobin-oxygen equilibrium 335
Ecker, E. E., Pillemer, L., Martiensen, E. W., and Wertheimer, D. Complement activity as influenced by certain chemical agents. 351
Ecker, E. E., Pillemer, L., Martiensen, E. W., and Wertheimer, D. Complement function as influenced by Szent-Györgyi's hexoxidase 359
Pillemer, L., Ecker, E. E., Myers, Victor C., and Muntwyler, Edward. Chemical and immunological studies of the effects of radiant energy and of oxidation on crystalline urease 365

No. 2, April, 1938

Cori, Gerty T., Colowick, Sidney P., and Cori, Carl F. The formation of glucose-1-phosphoric acid in extracts of mammalian tissues and of yeast 375
Cori, Gerty T., Colowick, Sidney P., and Cori, Carl F. The action of nucleotides in the disruptive phosphorylation of glycogen 381
Moyer, Laurence S., and Abramson, Harold A. Electrokinetic aspects of surface chemistry. V. Electric mobility and titration curves of proteins and their relationship to the calculation of radius and molecular weight 391
Kuyper, Adrian C. The quantitative precipitation of citric acid 405
Kuyper, Adrian C. The buffer action of unidentified urine constituents 409
Mueller, J. Howard. The utilization of carnosine by the diphtheria bacillus 421
Strain, Harold H. Eschscholtzxanthin: a new xanthophyll from the petals of the California poppy, *Eschscholtzia californica* 425
Wu, Hsien, and Wang, Cheng-Fah. Surface denaturation of egg albumin 439
Kerr, Stanley E. The carbohydrate metabolism of brain. VI. Isolation of glycogen 443
Coolidge, Thomas B. The mechanism of cytochrome action 451
Beard, J. W., and Wyckoff, Ralph W. G. The pH stability of the papilloma virus protein. Plate 1 461
Bergman, A. J., and Turner C. W. The biological assay of the carbohydrate metabolism hormone of the anterior pituitary 471
Caldwell, M. L., and Doebbeling, S. E. A study of the influence of heavy water upon amylase formation in barley 479
Irving, George W., Jr., and du Vigneaud, Vincent. The differential migration of the pressor and oxytocic hormones in electrophoretic studies of the untreated press-juice of the posterior lobe of the pituitary gland 485
Schønheyder, Fritz. The formation of coproporphyrin I and hemoglobin during embryonic life 491
Tauber, Henry. The interaction of vitamin B_1 in enzymic reactions. 499

LAUFFER, MAX A., and STANLEY, W. M. Stream double refraction of virus proteins 507
MICHAELIS, LEONOR, and SCHWARZENBACH, G. The intermediate forms of oxidation-reduction of the flavins 527
STEINHARDT, JACINTO. Properties of hemoglobin and pepsin in solutions of urea and other amides 543
LORENZ, F. W., CHAIKOFF, I. L., and ENTENMAN, C. Liver lipids of the laying and non-laying bird 577
FRIES, B. A., RUBEN, S., PERLMAN, I., and CHAIKOFF, I. L. Radioactive phosphorus as an indicator of phospholipid metabolism. II. The rôle of the stomach, small intestine, and large intestine in phospholipid metabolism in the presence and absence of ingested fat 587
CALDWELL, C. G., and HIXON, R. M. A study of the periodic acid oxidation of starches and dextrins as a means of determining molecular size 595
LEVENE, P. A., and CHRISTMAN, CLARENCE C. Synthesis of 5-phospho-*d*-arabinose 607

No. 3, MAY, 1938

KIRK, ESBEN. A study on Kimmelstiel's procedure for titrimetric cerebroside determination, with description of an improved technique 613
KIRK, ESBEN. A micromethod for approximate estimation of lecithin, cephalin, ether-insoluble phosphatide, and cerebrosides in plasma, red blood cells, and tissues 623
KIRK, ESBEN. The concentration of lecithin, cephalin, ether-insoluble phosphatide, and cerebrosides in plasma and red blood cells of normal adults 637
MARKLEY, K. S., SANDO, CHARLES E., and HENDRICKS, STERLING B. Petroleum ether-soluble and ether-soluble constituents of grape pomace 641
EILER, JOHN J., and ALLEN, FRANK WORTHINGTON. The catabolism of the purine nucleotides. I. The relation to glycolysis in the blood of the rabbit 655
POWER, MARSCHELLE H., and WAKEFIELD, E. G. A volumetric benzidine method for the determination of inorganic and ethereal sulfate in serum 665
BALLS, A. K., and MATLACK, M. B. Mode of action of pancreatic lipase 679
FOX, SIDNEY W. The preparation of citrulline by hydrolysis of arginine 687
KLOSE, A. A., STOKSTAD, E. L. R., and ALMQUIST, H. J. The essential nature of arginine in the diet of the chick 691
MCCLENDON, J. F., and BRATTON, A. CALVIN. A new method for determination of iodine in five cubic centimeters of blood or other biological material 699

BUTTS, JOSEPH S., DUNN, MAX S., and HALLMAN, LOIS F. Studies in amino acid metabolism. IV. Metabolism of *dl*-phenylalanine and *dl*-tyrosine in the normal rat 711
JACKSON, STANLEY M., and GORTNER, ROSS AIKEN. A study of the proteins of the inactive and active mammary gland 719
MAZUR, ABRAHAM, and CLARKE, H. T. The amino acids of certain marine algæ 729
BERNHEIM, FREDERICK. The effect of alloxan on the oxidation of alcohol by various tissues 741
SEEGERS, WALTER H., SMITH, H. P., WARNER, E. D., and BRINKHOUS, K. M. The purification of prothrombin 751
HASSID, W. Z., and CHAIKOFF, I. L. The molecular structure of liver glycogen of the dog 755
KRAUS-RAGINS, IDA. The action of arginase on natural proteins and derived proteins obtained therefrom by trypsin and pepsin 761
PROCEEDINGS OF THE AMERICAN SOCIETY OF BIOLOGICAL CHEMISTS iii
INDEX TO VOLUME 123 769
